SOCIAL MEDIA FOUNDATION

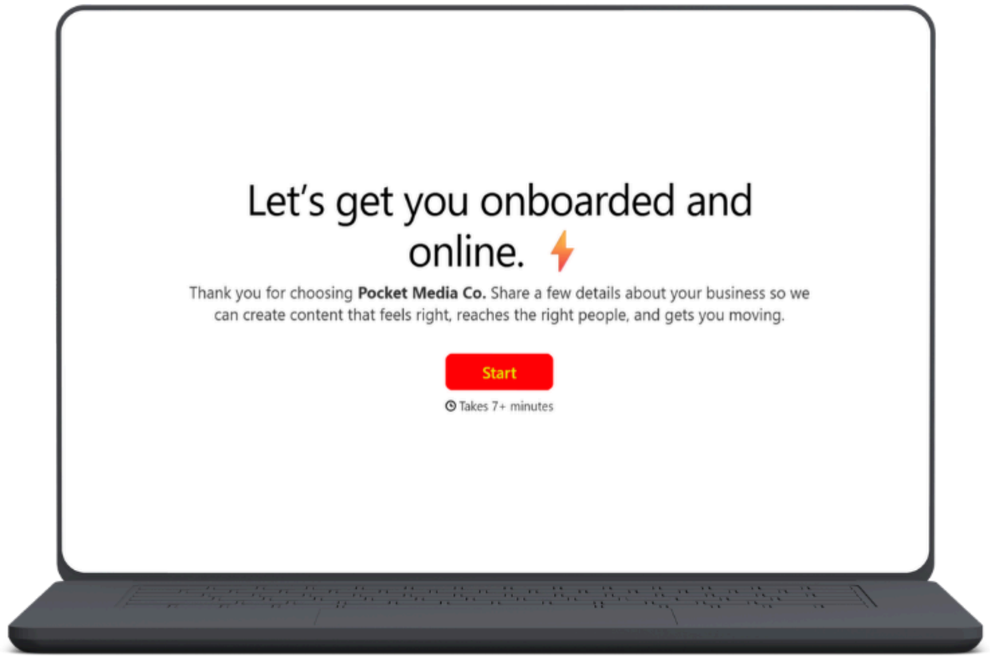

POCKET
MEDIA CO.

Before we begin monthly execution, we complete a one-time Social Media Foundation.

This is where we understand the business, review the existing page, establish the communication direction, define the content pillars and structure the first month.

It ensures we are not simply producing posts without first deciding what the account needs to communicate. Once this is completed, we move into the selected monthly plan.

Structured Business and Account Review

We conduct a one-to-one working session to understand:

01. Business & Audience
Business priorities, target audience, key offerings and customer buying triggers.

02. Communication Challenges
Current communication gaps, customer questions and what social media needs to achieve.

03. Content Resources
Available content, people, locations and resources that can contribute to the content strategy.

04. Account Assessment
Pocket then reviews the existing Instagram presence through a structured account audit, assessing its current condition, communication and overall readiness.

Communication and Content Foundation

01. Positioning
How the brand should be perceived and positioned on social media.

02. Communication Direction
The core message, tone of voice and communication style that will guide all content.

03. Content Strategy
The role of social media, content architecture and the key priorities the account needs to communicate.

04. First-Month Direction
The immediate business, credibility and communication priorities that will shape the initial phase of content.

The approved direction is then translated into the content pillars, visual mood board and content references presented in the following slides.

Content Pillars

CONTENT PILLARS

PILLAR	DESCRIPTION	KEY CONTENT IDEAS
Personality	Humanize the brand with Dr. Sakshi's values, journey & behind-the-scenes.	About me, Behind the scenes, Everyday snippets.
Education	Simplify physiotherapy with tips, FAQs, myths, exercises & awareness.	Expert's take, Case studies, myth busters.
Profession	Showcase expertise, services, clinic work & recovery journeys.	FAQs, Patient testimonials, Google reviews.
Occasions	Connect health days, festivals & awareness dates to physiotherapy & wellness.	Birthdays, National holidays, celabrations.

We organise the account around a focused set of subjects that the business needs to communicate consistently.

1)Education — What the audience needs to know.

2)Products & Services — What the business offers.

3)Credibility — Why the audience should trust the business.

4)Personality — The people, values and character behind the brand.

5)Offers & Occasions — Promotions, launches, events and relevant moments.

Each pillar is then expanded into relevant themes, topics and content opportunities.

POCKET MEDIA CO.

Visual Mood Board

We establish how the social media presence should look and feel before content production begins.

Terra.goa
Jungle Bar and Restaurant

Edit my profile Share

The girls club
Beauty brand

Edit my profile Share

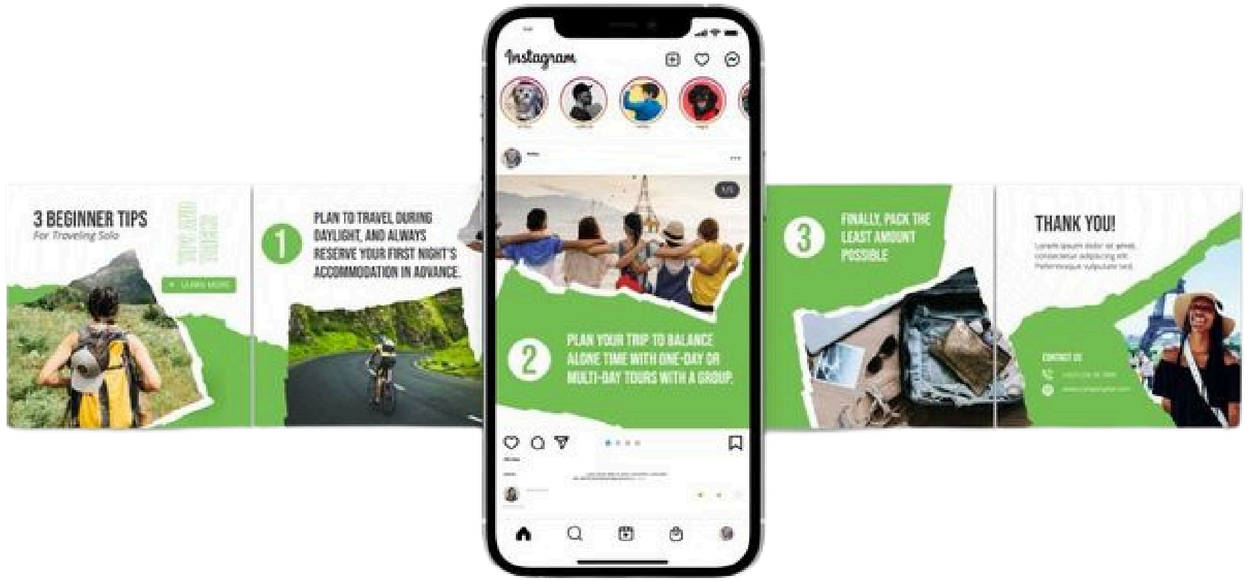

We establish the visual direction for the social media presence before content production begins, defining its colours, typography, imagery, graphic style and overall aesthetic. This creates a clear and consistent visual reference for all future content.

Content References

We identify examples that demonstrate how the approved communication and visual direction can translate into different content formats

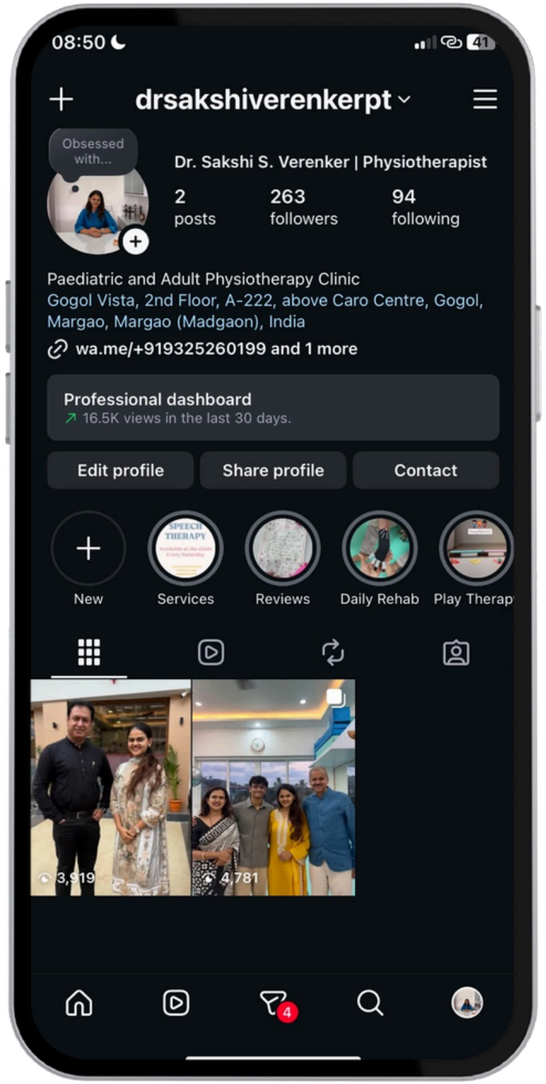

We identify examples across formats such as educational reels, product or service carousels, testimonials, team-led content, personality-driven stories and occasion-led communication. These references help guide the storytelling, framing, pacing and visual presentation of future content.

POCKET MEDIA CO.

Instagram Profile and Account set up

1)Profile Optimization
Make your profile clear, professional & searchable

2)Bio & Positioning
Create a strong bio that tells people who you are & what you offer

3)DM Optimization
Set up quick replies, FAQs & automated welcome messages

4)Contact Setup
Make it easy for customers to reach you via phone, email & WhatsApp

5)Links & CTA
Optimize your links and calls-to-action to drive enquiries & bookings

7)Highlights & Navigation
Organize services, reviews, FAQs & important information

8)Content Grid Optimization
Create a clean, consistent & professional first impression

9)Security & Account Setup
Set up 2FA, permissions & secure account access

10)Instagram SEO
Optimize keywords, profile information & content for better discoverability

POCKET MEDIA CO.

From Foundation to Monthly Expense

Once the Foundation is completed and the monthly plan is selected, Pocket translates the approved direction into a detailed monthly content calendar.

The final calendar is based on:

1. Selected monthly plan
2. Final monthly content volume
3. Reel, static, carousel and story allocation
4. Shoot requirements
5. Available client inputs and assets
6. Production and approval timelines

The calendar shown on this slide is an illustrative example of how the Foundation moves into monthly execution. It is not included as a completed deliverable within the Foundation.
